

### **Transcript for Beehive wormery**

Hello this is the beehive wormery. It is a 3-tier structure with a nice lid. And then this is the top layer where the worms are eating - that's biodegradable. You will see some nice worms there see beautiful worms eating all my veg and then the layer underneath which is more composted soon ready to go out into the garden again lots of lovely worms and a slug! There you are, that's my wormery!
