

## **Transcript for Recycle week – Libraries**

Join Lisa from Ansa Environmental Services and Liz from Cheshire East libraries, as they discuss the Together we recycle message.

Lisa: We are at Middlewich library and I'm here with Liz, who works around the libraries I'm just going to ask her a couple of questions about Together we recycle. So Liz, what type of things do you do in the library that help children with recycling and helping the environment?

Liz: Well we make sure we do lots of craft activities where we use lots of junk such as toilet rolls.

Lisa: Oh that is absolutely wonderful and I can see something on the wall here (points to the wall), is this something that the children have done?

Liz: This is something that a member of staff has done. It helps with recycling and helping the planet. We've got a really lovely display and we've got lots of books that you can take out.

Lisa: Oh that's wonderful well thank you very much Liz and thank you everybody.
